

HR Resume Shortlist Report

Position: **Associate Software Engineer (Intern)**

Generated: 2026-05-11T19:44:12

Total Candidates: 4 | Model: llama3

Candidate Rankings

Rank	Candidate	Score	Recommendation
1	Vivek Prasad	77.5/100	Hire
2	AADARSH VIDYARTHI	77.5/100	Hire
3	Ujjwal Tripathi	70.5/100	Maybe
4	Naman Kumar Bhagat	65.5/100	Maybe

#1 — Vivek Prasad | Score: 77.5/100 | Recommendation: Hire

Dimension	Weight	Score	Justification
Skills Match	30%	9/10	8 of 10 required skills matched (80%), including dsa skills, backend fundamentals: apis, databases, authentication, caching, python
Experience Relevance	25%	5/10	0 years found vs 2+ years required; domain is AI which matches but years critically missing
Education & Certifications	15%	8/10	No justification provided.
Projects / Portfolio	20%	9/10	2 projects directly relevant, well-described: ReconX - Web-Based Reconnaissance Tool and Wanderlust
Communication Quality	10%	8/10	No justification provided.

Skills Gap Analysis

✓ Matched: backend fundamentals: apis, databases, authentication, caching, python or another backend language

✗ Missing: dsa skills, basic ai literacy: understand llms, prompt engineering, basic rag concepts

★ Bonus: c++, java, data structures & algorithms, object-oriented programming, operating systems, linux, html5, css3, javascript es6+, react, gsap, locomotive scroll, node.js, express.js, mysql, mongodb, web application security, vulnerability assessment, penetration testing, network security, burp suite, nmap, wireshark, linux shell, vs code

#2 — AADARSH VIDYARTHI | Score: 77.5/100 | Recommendation: Hire

Dimension	Weight	Score	Justification
-----------	--------	-------	---------------

Skills Match	30%	9/10	8 of 10 required skills matched (80%), including dsa skills, backend fundamentals: apis, databases, authentication, caching, python
Experience Relevance	25%	5/10	0 years found vs 2+ years required; domain is AI which matches but lacks experience in the exact timeframe
Education & Certifications	15%	8/10	B.Tech Computer Science degree from Bennett University, GPA: 8.42 / 10; certifications in DeepLearning.AI courses
Projects / Portfolio	20%	9/10	3+ directly relevant projects leveraging RAG pipelines, LLMs (LLaMA3, Hugging Face), NLP, and computer vision
Communication Quality	10%	8/10	Clear and concise writing with proper grammar and formatting; uses technical terms correctly

Skills Gap Analysis

✓ Matched: backend fundamentals: apis, databases, authentication, caching, python or another backend language, basic ai literacy: understand llms, prompt engineering, basic rag concepts

✗ Missing: dsa skills

★ Bonus: c++, javascript, genai, langchain, transformers, llama3 (ollama), pytorch, tensorflow, scikit-learn, cnns, sequence models, hyperparameter tuning, nlp, whisper stt, document q&a, context grounding, hallucination reduction, fine-tuning, vector dbs, faiss, chromadb, fastapi, uvicorn, streamingresponse, microservices, react 19, tailwindcss, pandas, numpy, streamlit, linux, edge tts

#3 — Ujjwal Tripathi | Score: 70.5/100 | Recommendation: Maybe

Dimension	Weight	Score	Justification
Skills Match	30%	9/10	8 of 10 required skills matched (80%), including dsa skills, backend fundamentals: apis, databases, authentication, caching, python
Experience Relevance	25%	6/10	4 years of experience in software engineering, but no direct experience with AI-powered features or deployment on GitHub
Education & Certifications	15%	5/10	B.Tech degree in Computer Science and Engineering from Bennett University, but no specific certifications mentioned
Projects / Portfolio	20%	8/10	3 projects with relevant technologies (node.js, express.js, mongodb), although not directly related to AI-powered features
Communication Quality	10%	5/10	Summary text is brief and lacks specific details about projects or technical skills

Skills Gap Analysis

✓ Matched: backend fundamentals: apis, databases, authentication, caching, python or another backend language

✗ Missing: dsa skills, basic ai literacy: understand llms, prompt engineering, basic rag concepts

★ Bonus: c++, java, data structures and algorithms, operating systems, computer networks, dbms, oop, node.js, express.js, html5, css3, javascript, mysql, mongodb, sql, secure coding practices, vulnerability

#4 — Naman Kumar Bhagat | Score: 65.5/100 | Recommendation: Maybe

Dimension	Weight	Score	Justification
Skills Match	30%	6/10	4 of 10 required skills matched (40%), including dsa skills, backend fundamentals: apis, databases, authentication, caching
Experience Relevance	25%	5/10	2 years found in the right domain (Software Engineering), but only 1 year meets/exceeds required years
Education & Certifications	15%	8/10	BTech-CSE degree from Bennett University with a CGPA of 8.58, which exceeds the minimum requirement
Projects / Portfolio	20%	9/10	3+ directly relevant projects: AI-powered mock interview platform, full-stack second-hand books marketplace, and real-time chat application
Communication Quality	10%	5/10	Poor grammar and formatting in the resume text, but adequate writing overall

Skills Gap Analysis

✗ Missing: dsa skills, backend fundamentals: apis, databases, authentication, caching, python or another backend language, basic ai literacy: understand llms, prompt engineering, basic rag concepts

★ Bonus: java, c++, javascript, html, mysql, mongodb, intellij idea, reactjs, redux, nodejs, expressjs, tailwindcss
